NATIONAL AND STATE, AS FORE-

erats Preparing for the Coming National Camnign,-Readjusters Redistricting,-Pennsylva-nia Promising. Ten to Thirty Majority

POLITICAL PROSPECTS,

Washington, March 5 .- [Special Corres pondence.]-The democrats of the house have gone to work in a business way to prepare for the coming campaign. The recent caucus of which General Rosecrans was chairman freely discussed the outlook for the fall elections. It was the prevailing opinion that with good management, good candidates, and energetic canvassing a majority of the next congress could be made democratic. Congressional elections in the off presidential years are always favorable to the minority. No contingency can prevent the quarrel between half breeds and stalwarts from seriously injuring the republican Every-campaign next fall, thing points to democratic gain. The readjusters have studied out an artful scheme of redistricting Virginia so as to have eight of the ten congressmen, but m several of the districts they have trimmed their estimated majority down very fine and their well laid plans may "gang aglee." The Virginia democrats are not down-hearted. They are anxious for another chance at their mixed enemy and are justly encouraged by signs of disaffection in the dominant party. Virginia will be quite an interesting field again next fall.

In Ohio the worst gerrymandering, it is ways favorable to the minority. No contin-

interesting field again next fall.

In Ohio the worst gerrymandering, it is said on good authority, cannot prevent a democratic congressional gain. An enthusiastic effort to secure the legislature will be made for on that issue hangs a precious seat in the balanced senate. Pennsylvania with its revolting republicans and New York with Tammany's margined techniqued leaks

with Tammany's marplot crippled, looks promising for the democrats. A gain in each is almost certain.

THE MAJORITY EXPECTED.

Sober calculations from not over hopeful men, skilled in watching the signs of politics, in the worth gives the rest between ities in the north, give the next house to the democrats by a majority of from ten to thirty. This calculation is based on the as-sumption that the south will send about as

sumption that the south will send about as many democrats as it now has here. If the coalitionists capture Georgia, elect a majority of congressmen and do half what they say they are going to do, these figures will need revision.

The caucus passed a resolution requesting the democratic representatives from each state to name one of their number to go on a committee of thirty-eight. This committee is to choose a congressional campaign committee of seven. Yesterday the various states selected their man for the committee of thirty-eight. Georgia chose Mr. Clements, of the seventh, with confidence in his excellent judgment. He has proven that he knows what a good campaign is. It was a compliment to a new de has proven that he knows what a good campaign is. It was a compliment to a new member, but none was ever better bestowed.

Texas called into service another young Georgian, Mr. Olin Wellborn. He knows the politics of his state well. Either he or Clements would make an excellent resuber of the campaign committee. Either he or Clements would make an excel-lent member of the campaign committee. They are now on the committee of thirty-eight, and that will soon have a meeting to choose the committee of seven, which is to keep a sharp eye on democratic interests in every district of every state until the congres-sional election is passed. We may look for the closest Georgia contest in the ninth. The democracy up there is bustling already. That its hope is not forlorn is evidenced by the appearance of a number of prominent men in connection with the nomination. Judge Erwin, Dr. Carlton, Mr. Pope Barrow, and others are spoken of by Georgians in Washington as fitted for the leadership.

others are spoken of by Georgians in Washington as fitted for the leadership.

COLONEL PRICE'S VIEWS.

Colonel W. P. Price has recently been in Washington, and his presence suggested and emphasized his qualifications as a candidate. The colonel talks with confidence of a coming democratic victory in the ninth, and he is a most reliable authority on matters in the mountains, for he knows every nook of them. Mr. Allen Candler, of Gainesville, has been mentioned by the prophetic slate-makers.

Drug Store Destroyed.

STRATHRAY, Ont., March 7.—A fire early this morning destroyed the building owned by J. And J. English and occupied by C. P. Heale & Co., dry goods; R. Deprosse, grocer, and P. H. Mathews, tailor. During the progress of the fire, the front wall fell out, burying several people who were standing in the street. One of them, Hamilton Howe, an undertaker, was killed. Ten were seriously and others slightly injured.

A NOTABLE DEUG STORE BURNED. Mr. Allen Candler, of Gainesville, has been mentioned by the prophetic slate-makers. While these calculations are in progress, Mr. Speer's friends are hopeful as ever. They say he will be heard from before there is a change, and has no fear of an appeal to the people. Some of the republicans up there are growing discontented. Mr. Crane, of Clarkesville, is being gossiped about as a possible candidate, and dim in the distance looms the grim visage of

Benjamin Dugger.

COLONEL FARROW LOOMS UP. Colonel Farrow, one of the leading spirits in the coalition, was in frequent communication with Mr. Speer when in Washington retion with Mr. Speer when in Washington recently, and they say he is to keep down all republican discontent in the ninth, where he has considerable influence. Speer fought Clark and helped the Georgia syndicate with all his might to rearrange the federal patronage for the state and thus is the debt to be repaid. Mr. Carey J. Thornton, of Columbus, is in Washington trying to get the post-office. He is a republican and brings a strong local backing. Mr. R. D. Locke made himself prominent in opposing the removal of Andrew Clark. This brought upon him the disfavor of the syndicate. General Longstreet, Colonel Farrow and the other leading spirits in this Warwickian combination will now reward Mr. Locke for his zeal by going in for Thornton. He is in a fair way to get the office.

PERSONAL POINTS.

Environs eves have been turned toward

Envious eyes have been turned toward Zachariah Hargrove as he contentedly sits in the Rome post-office, a very neat berth. Hargrove has little to fear, however. Dr. Felton will not describe the content of the content will not desert him; the syndicate will not desert Dr. Felton, and the administration has locked its arms around desert Dr. Felton, and the administration has locked its arms around the syndicate in undivorceable love. Colonel Printup, of Rome, is here. Some mention has been made of him as a probable aspirant for the judgeship of the United States district court. He has always been an independent and a warm friend of Dr. Felton. Judge McCay's chances seem best for the judgeship. When his friends were presenting him for the place on the circuit bench left vacant by Judge Woods's promotion, a distinguished Georgian, in speaking to the president of his qualifications, said: "There is no judicial station he would not fill ably and well. He is worthy of a place on the supreme bench."

qualifications, said: "There is no justices station he would not fill ably and well. He is worthy of a place on the supreme bench." THE GEORGIA GOLD MINES.

The growing interest in the gold mines of Georgia will soon be evidenced in congress. Citizens of Dahlonega and other points in the gold region feel the need of an assay office in that country to test their ores and fineness of their gold. It would be of great value to them directly, besides bringing their resources more prominently before the public. A bill will soon be introduced by Mr. Speer to supply the necessary office, and its passage will be urged by the entire delegation. Mr. W. L. Scruggs gets a desirable place in the diplomatic service in his appointment as consul at Panama. He will soon have the title of consul-general, and as Panama is growing into high importance now, the responsibilities of sul-general, and as Panama is growing into high importance now, the responsibilities of the station will be great. I learn that there were about five hundred applicants for it. Mr. Scruggs' record at Bogota and Canton, with the endorsement of leading deorgians secured the prize for him. The salary is \$3,000 but it is increased by fees to between \$5,000 and \$7,000. Passed Assistant Surgeon Goldsborough, of

the Marine hospital service, has been ordered from Baltimore to Mobile. F. H. R.

This appeal for relief is contradicted by responsible citizens, who have written to the governor that there is no need for relief, and it is gen-erally looked upon as a dodge to obtain provisions from the government free of charge. Not one of these points is affected by the crevasse, and the governor is watching the matter closely, so that the generosity of the government shall not be abused by crafty politicians or penyings plants.

A special from Greenville, Miss., says: The back-water is still rising and spreading. It is now from six inches to a foot higher than in any overflow since the country was first settled. There will be very little land above water from the river front to the hills beyond the Yayor river. Greenville is government. the Yazoo river. Greenville is secure from any possible overflow, though the low points were at one time threatened. The refugees were at one time threatened. The refugees from the overflowed plantations are congregating here, and our resources to feed and shelter them will be severely taxed. So far the relief agents have not communicated with our local authorities. Our board of supervisors have asked that some government rations be sent here. The need is immediate.

The sheriff of Bolivar county has lodged his prisoners in jail here. He reports very few plantations in his county with even a strip of land above water. Consequently the loss of stock there will be almost total. The levees are thronged with negroes and stock, whose

A GRAYE PUBLIC DISASTER.

As its extent becomes known this calamity begins to appal. A tax sufficient to rebuild the levees above would be almost unsupportable but that is only an item. The laborers able, but that is only an item. The laborers have lost their stock and, movables, and are in a panic stricken and demoralized condition. Could transportation be secured there would be an exodus from here to the hills. The despondency of the planters and merchants is deepening. At first this blow was regarded as a disaster involving losses and hard times, but now it is assuming graver and greater proportions. The most thoughtful. hard times, but now it is assuming graver and greater proportions. The most thoughtful as well as most sanguine look upon it as a disaster greater than has ever before befallen the cotton country. It will almost destroy the feeling of security with which our local capacity to hold the levee was becoming regarded. Upon this reliance was based railroad and other movements of capital toward the Yazoo delta, and if it goes all possible prosperity of this section goes with it. The correspondent does not believe that confidence or hope can be restored without national help or hope can be restored without national help

MASON'S PROBABLE SENTENCE.

There is considerable speculation as to what
are the findings of the court-martial in the
case of Sergeant John A. Mason, charged with
shooting at Guiteau, which concluded its
labors on Thursday. The impression is that
the court has acquitted the prisoner on the
ground that Macon had not actually entered
on duty at the time, nor did he fire at Guiteau, for at the time, admitting that Guiteau
was at the window, he could not be seen from
the point whence Mason fired. It is generally believed that even if the prisoner has not
been acquitted that the punishment is not
severe, and that at most he will not be confined long if at all. collateral, in order to evade the provisions thereof. Mr. Beck gave notice of an amendment to the committee's amendment, striking out the words "fictitious and pretended."

of legislation. The calendars were clogged with public business, and the members were declaiming that it was impossible for them to listen to the demands of their constituents for lack of time. This injection of such a mass of poetry into such a volume of plain prose as the house of representatives ought to be, was out of place and out of order.

Mr. Taylor, of Ohio, saying that he was op-

Mr. Humphrey, of Wisconsin, thought that n view of the suffering of the people of the outh from the floods of the Mississippi the louse had better attend to alleviating that suffering than send a committee down to celebrate an occasion like this. SHAKING HANDS.

In the evening, after a spurt, Hughes and Hart shook hands, as an indication that their feud was ended. Hazzel trotted his last mile accompanied by Fitzgerald, the band playing "Patience," and then "They are jolly good fellows." The champion's whip was presented by "Pop" Whitaker, the orator of the arena. The handle of the whip is of yellow gold, on which, in yellow California gold, is a figure in pedestrian costume and cerrving a gold, on which, in yearow Camorina gold, is a figure in pedestrian costume and carrying a whip. Below this is a figure of the American eagle in relief, supporting a wreath of laurel leaves in green gold, which entwines the handle and incloses the inscription. Below this is a band of gold encircling American gens, including a blue tour. American gems, including a blue tour-maline from Maine, a red jacinth from Arizona, a green hiduenite and a black rutile from North Carolina. The but of the whip is urmounted by a cap of precious stones, joining the national colors. As already stated, he score of 582 miles made by Fitzgerald in December, 1881, was the best up to this race. In addition to the challenge issued by Mr. Theodore Davis to back an unknown, Hazael has received several more challenges, one from Richard K. Fox, offering to back Hughes, and one on behalf of an unknown, Hughes, and one on behalf of an unknown, supposed to be Rowell. Fitzgerald is also said to desire another trial. The receipts of the walk were about \$46,000, leaving after de ducting expenses about \$30,000, to be divided among the six walkers. The total attendance

was probably 50,000.

The walk was a financial as well as a pedestrian success. No official report of the receipts was made last night, but an estimate furnished to the press shows that the amount taken in at the gate and for the garden "privi-leges" was about \$45,000. Mr. Peter Duryea, who advanced the moneys necessary for the walk, takes 15 per cent of the gross receipts for his risk. This will give him a profit of about \$6,750. After this sum is deducted, the rent of the garden, which is \$10,000, and all other expenses will be paid, and the sum that remains will be divided among the six men who completed 525 miles in the proportions stated in yesterday's Star. Hazael receives \$3,000 of the \$3,000 stake money, and Fitzger-ald, who took second place, receives the re-maining \$1,000. taken in at the gate and for the garden "privi

Washington, March 7.—Mr. Romero, the special envoy of the Mexican government, has arranged for a conference with the secretary of state, on Thursday and Friday next, with the view to entering into negotiations for a treaty of reciprocity between Mexico and this government. It is understood that Romero, within the limits of certain instructions, has been accorded full discretionary power to act for his government. Campaign and Season.

ELBERTON, March 6.—[Special.]—Well informed farmers state that the prospect now is that Elbert county will harvest the largest grain crop this year ever known. The Constructor's articles and replies on farm-ing are exciting much interest and comment among the farmers in this county. The probabilities are that the sale of guano in this section on this year will not exceed one-half the amount sold last year. Road and street working is the order of the day. Our efficient marshal is putting in some excellent work on the streets of our town.

Local politics in this county are beginning to assume an interesting shape. Several prominent gentlemen are already spoken of as probable candidates for representative and are quietly feeling their weight with the people. There are two candidates in the field now for sheriff, both of whom are hard at work. Bleckley, Bacon, Blount and Crawford are all spoken of in connection with ford are all spoken of in connection with the governorship. Our superior court con-venes next week. There is a large amount of business on the docket.

Georgia appointments to political offices depend, it is said, upon the pleasure of General Longstreet and Congressman Speer. I suppose that all of them will be presently arranged. other day Charlie Height hired Jim Good, colored, to carry a mule to Cave Spring. Jim looked at the mule sometime before he could decide whether to tote the mule, haul it on a dray or undertake to ride it. He finally settled on the mule and the last named plan. Jim and the mule got along well enough until they met another mule or horse and then such a time Jim and the mule would have. The mule had a head of its own and would generally point it to the opposite direction from Cave Spring—preferring doubtless to use its tail as an index finger for that the single will age. In utter despression as thriving village. In utter desperation at Pressley's farm, some eight miles from the city, Jim pawned his last dollar for the loan of a spur to encourage the spirit of that mule. The spur was a good one—it knew its duty and did it well. Jim straightened his right leg and with bated breath suddenly drew his right heel home to the flank of that mule. The spur was on that heel and Jim was on that mule. The problem of the scene was changed. The spur was on that heel and Jim was on that mule. The scene was changed The mule stood on its fore-legs looking over into Pressley's field at Jim, all done np in a pile in the mud. It seems the mule decided to go over the fence and suddenly changing its mind stopped—but Jim kept right on over the mule's head and the fence. Jim swears never to hire out for fence. Jim swears never to hire out for a fool again, and he says he rode and walked—walked chiefly—forty miles to get that mule to Cave Spring. Jim has swored off agin spurs. He does not even like to hear a rooster crow—for he thinks of spurs so badly.

THE GRAND OLD RUIN ON CUMBER-LAND ISLAND.

Once an Abode of Abounding Hospitality—The Hom-of the Descendants of Gen. Nathaniel Greene— The Grave of Light Horse Harry Lee A Massive Structure—A Mystery.

Washington Gazette I mention Dunginess, of Cumberland Island, Georgia. This grand old ruin stands on the south point of the island, looking out on the broad expanse of the Atlantic. Disman. tled and despoiled by vandal treatment during our late war, it is no longer tenantable; and its former lofty walls seem to have lost half their altitude. It was originally a sixty feet cube, of massive tabby structures, whose castellated gray heights loomed up in the dim distance a landmark for the weary mariner looking homeward. AN EARTHLY PARADISE.

Dunginess was once an earthly paradise, the abode of true gentility, and abounding hospitality. In the early spring the delicious odors of its orange groves, wafted by favorable winds, could be inhaled for miles on the open sea. Here for many years was the home of the immediate family and descendants of General Nathaniel Greene, of the revolu-tion, the friend and favorite of Washington. The remains of General Greene do not repose, as some think, on this island home. He died at the age of forty-four from sunstroke at his rice plantation, Mulberry Grove, (given him by Georgia,) a few miles above Savannah, on the Savannah river, on the 19th of June, 1786, having never lived on Cumberland island, which was subsequently settled by his family. And the sequently settled by his family. And the present place of his sepulture, knoweth no man unto this day. Immediately after his death his remains were deposited in a vault for a temporary period, located on confiscated property, confiscated because the original owners had sided with the royal government, and lett the country.

That he had been removed by cruel hands, was absolutely certain. The sad mystery remeins shrouded in painful, weary conjectures. But, although debarred the privilege of visiting the resting place of the great man, his name and deeds are crystalthe great man, his name and deeds are crystalized in the chronicles of the great revolution; and by the cenotaph erected to his memory

by the city of Savannah in 1825, the corner stone of which was laid by his comrade, General LaFayette, during his triumphal visit to the United States. And we hope that the monument voted by congress, to residents along these regions prefer getting their freight by steamers, as it costs less, and in addition to this they save the trouble of hauling it fifty or sixty miles. If the government would expend a reasonable sum in deepening Piney Bluff Shoals, in Appling county and Town Bluff Shoals, steamers could make regular trips and come down at upon this long-neglected duty. But the remains of a noble hero of the great revolution, do repose at Dunginess. Those of General Henry Lee, known as light-horse Harry, the father of our peerless Robert E. Lee. He was distinguished for superior military prowess, activity and efficiency. Was a man of rare intellectual ability and

culture. He composed the best history of the war in the southern states; and is the author of that immortal tribute to "the father of his county," (found in his eulogy on Washington,) "First in war, first in peace, and first in the hearts of his countrymen!"

BREWER'S LUNG RESTORER Below we make a few remarks on

BREWER'S LUNG RESTORER.

and as we know they are facts we ask all interested to read them carefully

THESE ARE THE REMARKS __AND__ /

THESE ARE FACTS!

Not long since certain parties in Macon, who had a married daughter living in an adjoining county, received a letter from a physician saying that their daughter was nearly gone with Consumption, the right Lung entirely gone and the left somewhat affected, and urged them to come to see her at once as she was liable to die at any momet. Before starting they bought three bottles of

having heard it highly spoken of. Whey they saw her they were perfectly shocked at her condition; she had fallen away to skin and bones, and could not sleep or rest in any position. They told the doctor they wanted to give her the Lung Restorer, which he readily consented to, as he had tried everything he could think of. They save it to her and she began to improve after the fourth dose and continued to do so until she is now pronounced

she gained about FIFTY POUNDS while using Another instance of its good effects came to our knowledge a few days ago: An old gentleman about 65 years old gained eighteen pounds while using three bottles.

These were desperate cases and we believe that these two parties alone will be the intens of our selling thousands of bottles of EREWER's LUNG RESTORER, as they take every opportunity of letting others know of its wonderful effects.

Messrs. Lamar, Rankin & Lamar-Gentlemen:
My little girl s years old, has been for some time
troubled with a severe cough, which physicians
pronounced bronchitis. She slept out little, coughing the entire night, and we had to get up very
often to help her out, the cough was so severe. At
your solicitation I bought a bottle of Brewer's Lung
Restorer, and she began to improve at once and has
been sleeping nicely ever since, and I firmly believe
she will be pernamently cured. I was vesy much
frightened at her condition not long since, but am
now rejoicing at her rapid recovery.

HEMORRHAGES STOPPED.

It gives me great pleasure to certify to the merits of Brewer's Lung Restorer, as I have used it and found it all you represented it to be. My lungs were affected to some extent, and I had a hacking cough, often spitting up blood, which at times would amount to a hemorrhage, and I became very much frightened at my condition. I bought several bottles of the Brewer's Lung Restorer, and have been entirely cured by its use, and feel satisfied that it is permanent, as I've had no symptoms of the disease since. I am satisfied that this medicine will prove a great blessing to the people. If you would introduce it into the northern states it would make your fortunes. Yours troly.

BREWER'S LUNG RESTORER.

Having suffered greatly for about three years from severe throat and lung affection, I was advised by Mrs. Professor Dezier to try Brewer's Lung Restorer. Not having any fauth in patent medicines I was reluctant to give it a trial, but finelly yielding to persuasion I purchased half-dozen bottles, and after a fair trial I take pleasure in declaring that I have been wonderfully benefited, and pronounce "Brewer's Lung Restorer" a biessing to those afficted with throat and lung affections.

For months during my affliction I was unable to lie down to rest; my breathing was so difficult that a constant wheezing noise could be heard across the room, and my friends were concerned for my life. All the sleep obtained during this time, (necessarily broken and unsatisfactory), was in a sitting posture, but now I can recline with ease, and my repose is natural and pleasant.

circumstances occurred:

Mrs. James Coleman, while on a visit to her

she would die with a case of bronchitis and consumption of long standing. There was no physician
to be had, the nearest points being Dublin and Mt.

sent over to the store for something that would
give relief. I gave them a bottle of Brewer's Lung

hours she was able to go home, about twenty-one
miles; and I have sold several bottles to-day to parties who know of this circumstance. Mr. A. H. Mc

Said a sufferer from kiney troubles, when asked to try Kidney-Wort: "I'll try it, but it will be my last dose." The man got well, and is now recommending the remedy to all.

When derangement of the stomach acts upon the kidneys and liver bringing disease and pain, Kidney-Wort is the true remedy. It removes the cause and cures the disease. Liquid (very concentrated) or dry act equally efficiently.—American Cultivator.

ATLANTA, GA., MARCH 8, 1882.

A NEW gas company for Atlanta is an nounced as in progress. This enterprise is one that will be welcomed. More light is always desirable.

PRINCE MILAN has been declared king of Servia. His limitations are many and his opportunities few. He will not attract very much public attention for very long. Ir we can't have free trade with our next

CHIEF JUSTICE MARSHALL is to have a \$20, 000 congressional statue. It is a fit honor to the purest and best man who ever sat on the bench of the supreme court, and if his bust could be put where the president could see that grand face when he proposes to make such men as Conkling fill the same benches, per haps it would have some good effect.

In all there have been two colored senators and fourteen colored representatives in congress. Senator Revels, of Mississippi, was the first colored man admitted to either house, and Senator Bruce of the same state was the last colored man who held a seat in either house. There are two colored contestants in the present house, but no sitting member.

Last night's reception to Mr. W. E. Dodge was a perfect success. Governor Colquitt, as usual, felicitously introduced the speaker, who is more or less identified with Georgia, although a northern man. Temperance is a subject in which nearly every family is interested, and Mr. Dodge eloquently set forth his mission in which every one will wish him

PRESIDENT ARTHUR has utilized his office and the United States senate to give the discredited ex-senator of New York an opportunity to air his importance. He has endeavored to reinstate him in public confidence. No one will be apt to blame the president for clinging to a friend in distress, but the grave and honorable senators have a right to object to the use they were put to in this piece of business.

THE political effects of immigration are beginning to show in the apportionment tables. In 1850 Illinois had 9 members; now she has this country will reap the honor of settling a 21. Georgia had 8 in 1850 and now she has Iowa had 2 in 1850, and now she has 11. Alabama had 7 in 1850, and now she has 8. Wisconsin has gone from 3 in 1850 to 9, while Tennessee has the same number she had in 1850. We need not extend the list. We have given enough to warrant the assertion that the census of 1890 will rob the south of political power if she continues to permit the tide of immigration to flow to other states.

It is announced that the sultan of Turkey wishes to visit western Europe. This will be an extraordinary performance if it takes place. In this century only one commander of the Faithful has sailed out beyond the Golden Horn. The present sultan, however, intends going and probably thinks cousin, the shah of Persia, who has little interest in Europe, can visit as a crowned head, surely he, who has caused more excitement in Europe than any other ruler, can do the same. Seriously considered it is a shrewd move, and one calculated to enhance Abdul Hamid's personal power; which is so much overshadowed by the porte. He will undoubtedly by his visit introduce a dew and perplexing form of the eastern question into western politics. RAISING A DEAD ISSUE.

THE CONSTITUTION is little disposed to deny the right of fullest criticism-but we respectfully suggest that there is a flavor of bitterness in the comments of certain papers on what they are pleased to call the Colquitt-Brown

As to the record of this "clique" it will carry the state again just as it carried it before, for it is the record of the democratic party of Georgia. Its friends claim no leadership in the anti-republican campaign just opening. They ask simply to stand shoulder to shoul der with the Norwood men, fighting as demo crats always fight when a common danger menaces or a common cause unites. But they do claim the right to the same hearty sympathy they extend to their comrades and exemption from wanton and malicious flings. No man is a true patriot or a true democrat who does aught now to impair democratic harmony or drive a single man from the democratic ranks-whether he be inspired by the mentories of defeat or personal spleen.

THE CONQUERED AND THE CONQUER

General Lynch, of the forces of Chili, tool ossession of Lima last year, and since that ime there has been no organized govern ment in Peru. The entire country has ever since been practically under Chilian manage ment. Chilians hold the ports and collect the duties, conduct the postal affairs, collect local taxes, provide means of keeping courts in operation, the streets clean, and the people in comfortable condition. And yet Chili does not want to hold Peru permanently any more than she wanted to hold Bolivia. But Bolivia had a government with which Chili could arrange terms of peace, and by the cession of her coast province Bolivia was released from all respons bility for beginning a war against Chili.

Soon after the Chilian armies seized the capital of Peru, the Peruvian president, who and much to do with the bringing on of the war, fled the country, and Pierola proclaimed himself dictator. Chili could not treat with him, for he represented nobody; and when Calderon was declared provisional president the unfortunate declarations of Minister Hurlburt induced the Peruvians to reject all propositions that embraced a war indemnity. Calderor was therefore a stumbling block, and he was soon afterwards carried to Chili as a prisoner. Inst why he was seized no one outside of the Chilian line seems to know. Calderon, however, appointed Admiral Montero vice-president, and this man, without a ship, or an army or any revenue, has established a capital in an obscure inland town, called Cajamarca.

Secretary Blaine, it will be remember ed, dispatched Mr. Trescott and Assist ant Secretary Blaine to Chili to arrange if possible, terms of peace. They were to prevent, if possible, any cession o territory to Chili, but the latest advices show that these instructions could not be or have not been regarded; for a protocol has been signed by the Chilian premier and Minister Trescott, in which Chili's claim to territorial accession is recognized. Mr. Trescott is allowed ninety days to find a real Peruvian government, with which to conclude a treaty of peace on the basis of the new protocol.

It is to be hoped for the good o all concerned that the commis sioners sent out by Mr. Blaine will be able to make peace between the two republics. Chili needs peace nearly as much as Peru, for her resources have been well-nigh ex hausted, and her currency is greatly depre ciated. Her bonds are still at par and her credit is unimpaired in Europe, and a few years of peace would give her financial strength. Her prowess was established in the war that was forced upon her, and her demands for an ample war indemnity are in all respects reasonable. Peru was bankrupt before the war was begun, and any talk of war indemnity from her except in the form of territory, would be nonsense. She must give up her nitrate and guano deposits, as Bolivia has done, in order to relieve herself of permanent occupation. The penalty is heavy but just; and this country had no right to stand in the way of such a settlement. The declarations of Minister Harlbut have been explained, and our peripatetic commissioners seem to have taken a correct view of the situation, and there is therefore ground for the hope that very difficult matter without being a party to any great change in the map of South

SOME STATISTICS.

America.

We have already given a brief summary of the comptroller general's report for the year ending October 6, 1881. In the volume, which is nearly ready for delivery, the report proper is supplemented by tables of statistics of great value, the number of pages reaching 189. The assets of the state, apart from the Western and Atlantic railroad, the public buildings and some lands in Pulaski and Wayne counties, which are not estimated. consist of \$18,600 in shares of the Georgia railroad and banking company; \$1,600 worth of Oconee bonds; \$10,000 worth of bonds of Southern and Atlantic telegraph company, indorsed by the Western Union; \$875,000 bal ance due from the sale of the Macon and Brunswick railroad; \$66,233.62 in bonds of the Marietta and North Georgia railroad.

The total capital invested in building and loan associations shows an increase over 1880 of \$167,636. The total investment is \$256,110, and of this \$168,650 is in Richmond county alone; \$31,000 in Bibb; \$15,000 in Muscogee; \$10,275 in Fulton-a decrease of \$10,000; \$14,-000 in Clarke; \$5,600 in Appling; \$4,200 in

Glynn; \$3,400 in Pulaski. The value of cotton, corn, annual crops and provisions held for sale in the state on the first of April, 1881, amounted to \$930,180, an increase of \$146,753 over 1880. This shows a very small margin for improvement, but in what has heretofore been the all-cotton region the increase has been very great, but it has almost been over-balanced by the deof the stalwart administration, which it is crease in counties where cotton-raising is comparatively a new investment. Thus, in ernment. Capital invested in mining decreased \$1,715 in 1881, and the increase in the value of iron works amounted to only \$82,159. It will be observed that there is still a wide field for the investment of capital. The increase in the value of horses, mules, hogs, etc., for 1881, amounted to \$464,989. There are 30, 094,114 acres of improved land in the state, an increase over 1880 of 126,552 acres. The value of the improved land is \$90,567,519, an increase over 1880 of \$3,675,560. The returns of the value of capital invested in cotton manufactories are of little value inasmuch as the figures are not later than April of last year. At that date, according to these returns, the capital invested in cotton factories amounted to \$2,482,086, an increase of \$515, 241 over 1880.

The aggregate value of property in the state amounts to \$254,252,630, an increase over' 1880 of \$14.726.878. Fulton leads the other counties with \$22,930,780, folowed by Chatham with \$17,580,590, Richmond with \$16,604,091, Bibb with \$9,043,313, Muscogee with \$8,108,719, Floyd with \$5,716,-043, Clarke with \$4,702,410, Cobb with \$3,580,-940, Bartow with \$3,393,331, and Troup, and Sumter, and Coweta following close behind,

The colored people own property returned at a value of \$6,478,951, an increase over 1880 of \$671.179. They own 660,358 acres of land. valued at \$1,754,800; city or town property valued at \$1,323,045; horses, mules, etc., valued at \$2,213,021, and so on. In Colquitt county, where only nine colored polls are reported they own 1,355 acres of land, and in hatham county, where there are 4,086 voters, they own 2,309 acres of land. Seventeen colored voters in Pickens own \$3,878 worth of property, while thirteen in Towns own \$1,138, and thirteen in Union own \$163. The colored people of Fulton own \$348,296 worth of property.

They had old heavily to country merchants, and were driven where improvement in the trade or the removal of the cause of depression will relieve embarrassed debtors. The credit system in the south is one of yearly accounts, and if the balance is on the wrong side at the end of one season, it is uscless to expect that the next year's crop will make good the loss. The planters are not yet a provident class, and whether the crop be large or small, it is too often eaten up by the merchants' advances. This year's cotton will pay this year's debts, not last year's.

The Present Tariff.

Galveston News.

The protection of the present tariff system has always been of a very stepmotherly character as far as manufacturing resources in the south were concerned. The children of its natural maternity and true affection were elsewhere, and, pampered and overgrown, they have lorded over the "infant," stunted ragged industries of the south with a ruth-less hand. Sweep a way the protective tariff, leave men free from all needless restraints and burdens as to production and exchange, cheapen in this way machinery and other essential elements of manufacturing for southern manufacturing enterprises located in contiguity to the places where the raw material is produced, and such enterprises will enjoy the best of all protection in the natural advantages of their situation and surroundings. Given these conditions, they will soon be able to defy competition from abroad, to command the market at home, and gradually to expand until, in many of the staple commodities of commerce, southern manufactures will lead the world.

Why should not the legislature be called togethe o make a new apportionment. The plea of ex-pense is a poor subterfuge. The present legislature would take no longer to do the work than the next legislature will. The state will have to pay one or legislature will. The state will have to pay one or the other of them so much per day while at work upon this matter. The only additional expense would be the mileage for an extra session, and surely that is too trifling to be allowed to stand in the way. It may seem uncharitable, but we cannot ascribe the opposition to a redistricting for the next election to anything else than the desire of its opponents to keep the way open for the election of some favorite of their's as congressman at large; and as nearly or quite every district has one or two aspirants for this honor, the combined influence is considerable. It is wrongly directed, however. Only one of them can get the nomination, and would be wiser to take the chance of securing an opening by the formation of a new district than to go into a contest for the nominations on a ticket at large. We trust that no considerations except those of securing fair and equal representation, and the rectification of the districts so as on a ticket at large. Around me lay: I could but think of silent glide— Of buds and blossoms lowly laid The harvest day. "And this is all!" I sadly said,
"These withered leaves-"These withered leaves— This gathered grain; spring's nours of biles. And summer's glory turn to this— Some yellow sneaves!

Then Farmer Gale-that good old man, So simply wise— Who overheard, and quickly turned, Said, while a spark of anger burned In his gray eyes:

Whereof thou pratest!
For, be the flower as fair as May.
The fruit it yields in harvest day
Is still the greatest!

"Lad, thou art town-bred, knowing naught

"And thou—thy spring shall quickly pass; Fast fall the leaves From life's trail tree. In harvest day See that before the Lord thou lay Some yellow sheaves!" He went his way; I mine. And now
I hear the flow
Of busy life in crowded street—
Of eager voices, hurrying feet,
That come and go.

Yet e'en when flashing factory looms My hands engage,
I see that far-off upland plain—
Its long, low rows of gathered grain,
Its rustic sage,

And hear them say: "Let pleasure fair, And passions vain, And youthful follies, fade and die; But all good deeds, pure thoughts and high, Like go'den grain

"Be gathered still." Blest harvest store! That surely grows
In hearts by noble dreams inspired: By other's woes.

Lord, when thou callest; when this world My spirit leaves, Then to thy feet, oh, let me come, Bringing, in joyful harvest home, Some yellow sheaves!

The work of temperance was in the hands of many laborers, but owing to -a want of aim born of a want of unity very little was accomplished. Sixteen years ago 320 delegates from 28 states assembled at Saratoga, New York, and formed the National temperance

association, designed to give tone and union to the work, and to labor toward the creation of a prohibition sentiment throughout the union. The association now has a working

union. The association now has a working capital of \$75,000. It has done an immense work in the publication of temperance literature. It is pressing the question of prohibition in every state, and has now secured for the

temperance agitation recognition in congress, in which body a standing committee on the

sale of alcoholic spirits has been organized.

After further explaining the purpose of the movement, Mr. Stearns retired.

THE GOVERNOR'S SPEECH.

Governor Colquitt advancing to the front, referred to the fact that it had been his plea-

sure on many occasions to tender to dis-tinguished visitors, on behalf of the people of Atlanta, and of Georgia, the hand of fraternity

and welcome; but never did he do this duty to one more worthy, or to one whose name inspired more ardor and fraternal regard than the distinguished gentleman present to-night. We horfor our own characters, when recog-nizing in others the qualities which make and welcome; but never did he do this duty

nizing in others the qualities which make men great and worthy of love, we honor them,

seeking office; a man with means, ever at the disposal of good works, yet not ostentatious

whose best efforts have been given to the eleva-tion of his kind. In all the long list whom we

have received fresh from victory, heralded by military pomp and aided by adventitious cir-

His name is not more indelibly marked upon the map of our state than it is in the hearts of our people. I now introduce to you our friend and brother—the lover of his race—William E. Dodge.

which the governor spoke deeply affected Mr. Dodge, who felt for some time unable to pro-ceed with his remarks. He declared his hap-

piness at being present, and his appreciation of the manner of his welcome. God had blessed him with many years of life, which enabled him to look back half a century, and

recognized as a social problem of commanding claims. Fifty years ago there was scarcely a house in which liquor was not kept as a social necessity; but step by step improvement has been made until now to drink is regarded with suspicion even by drinkers themselves. Even in the last ten years the change has been remarkable, not only in this country but in England, where \$7,500,000 is expended in the

or traffic, and as much more is spent as a

brought with them their love for strong drink. There are also 300,000 Germans, addicted to their milder bevera-

mans, addicted to their influer bevera-ges, but all the more dangerous on that account. Outside of the city of New York the state is in favor of prohibition. We want to educate people that it is wrong to drink; and while it is true that law cannot

stop a certain amount of drinking any more than it does a certain amount of stealing,

still we want the drinking custom to be

still we want the drinking custom to be branded with the condemnation of the law, rather than enthroned with its sanction. In Maine there may be some liquors sold, but it is as unlawful as theft. The counties in which the law is most rigidly enforced are the ones in which the jails and poor houses are empty. From Maine the cause has reached into Kansas, and the example of Kansas will

e followed by others. It is astonishing that nen would license a trade from which they

men would license a trade from which they admit that only evil can come. Three-fourths of the crime of the country is the direct result of drink. No man ever did wrong because of temperance, while

hree-fourths of the wrong-doing is admitted of the opposite course. Orunkards can be reclaimed, and generally hey are worthy of any sacrifice to reclaim hem. The mean, miserly man seldom becomes a drunkard—it is the free-learted, open-handed man who is generally ed astray. Bring them under the influence

of the gospel. The speaker gave the history of a New York reformatory for "respectable" drunkards, the lesson of which was that refor-

mation was not only possible but generally succeeded. He portrayed the long procession of drunkards—75,000 strong—as it went down into the valley of death, only to be followed

was next called out and made a telling speech. Of eléven counties in his judicial circuit not one permitted the sale of liquor. Years ago the Flournoy petition was presented to the legislature in favor of temperance. Every man who put his name to that petition suffered political death. Now it would be political death to refuse to sign one. On election days not only does our state constitution forbid the sale of liquor, but it is a crime to give it away. The law also protects the minors both from bar-rooms and gifts. If a young man, lacking just one day of being twentyone, should be seated at table, by the law of Georgia it would be a crime to offer a glass of wine unless he had the written consent of his when the would be a crime to offer a glass of wine unless he had the written consent of his daddy. The speaker confidently expected to see the day when Georgia would be a prohition state. The judge's speech was earnest, humorous and convincions.

The youngsters clung in terror to the skirts of their mothers, while the adult males were not so certain but that the darkies were sent into the room to scare them or eat

them up. The young colored men enjoyed the sport themselves, and tried to talk gibber-ish to the exiles. THE LANCASHIRE SUSPENSIONS

were opened with i rayer by Rev. J. H. Martin and the singing of appropriate hymns.

THE OCCASION EXPLAINED.

Governor Colquitt then introduced Hon. J.
N. Stearns, upon whom was devolved the duty of explaining the work in which the national temperance association is purposed. A Statement of Some Interest Bearing on Conton New York Times.
For two very good reasons the Lancashire cotton manufacturers have resolved unaniimously to close their mills for two weeks during the present month. Cotton is nigh and the price of manufactured goods is low. A two weeks' suspension will, they hope, lower the price of the raw material and raise that of their product. The English spinners and manufacturers, from a natural self-interand manufacturers, from a natural self-interest, have been somewhat persistently "bearish," and have declined to accept as true the
predictions of speculators as to the deficiency
of the American crop and the consequent certain rise in price. For this reason they
have bought sparingly since the season opened, so that on January 31,
the surplus stock on hand in Liverprod was 123 (00 below cerprod by \$123 (00 below cerprod was \$123 (00 below certhe surptus stock on hand in Liver-pool was 133,000 bales, against 25,000 bales on October 1. There was not much buying in Manchester, even after the fall in prices dur-ing the fourth week in January and the sub-sequent weeks, and the late rise to 6 7-16d, for middling upland cotton in Liverpool has quickened the determination of the manufac-turers to shut down. They have hear the turers to shut down. They have been unable to get any corresponding advance in price for their goods, which are selling at a considerable falling off from last year's figures. The Manchester quotations for 8-4 shirtings on February 24 were 6s. 6d. to 7s. 10½d., against 6s. 10½d. to 8s. 2¾d, on the same date last year; and yarns show a similar weakness.

MANUFACTURERS' CONTRACTS.

English advices say that the manufacturers have for some weeks been engaged in working off old contracts, with very few new ones coming in. Production has rather more than overtaken consumption, particularly in the eastern trade, and the manufacturers reasonaeastern trade, and the manufacturers reasonably hope for improved prices as a result of two weeks' idleness; at any rate, with cotton working up toward 7d per pound, there was no visible profit in turning out goods on an already glutted market. This action of the English mill-masters will have its effect upon the labels with the contraction of the contraction. the elaborately untrustworthy calculations by which our cotton speculators delude them selves or others in respect to the rise and fall of prices. Ellison & Company's circular of February 9 puts the actual rate of consump-tion in Great Britain at 70,000 bales per week, against 67,000 last year, and for the continent it 58,000 bales, against 55,000 in 1881; in other words, Europe has been calling for 6,000 bales per week more than last year. The estimate has been accepted here, and the increased de mand for American mills has been put down at 150,000 bales, making a probable extra con sumption for the whole world of 450,000 for the year. This must be met with an Ameri the year. This must be met with an American crop that is at the very least 1,000,000 short. This may be called a hopeful estimate, Bradstreef's adheres to its estimate of 5,018,000 bales, based on a most careful and widely extended system of crop reporting, while under date of February 13 the national cotton exchange makes up a crop of 5,392,000 bales, if we take a convenient middle course and call the yield. enabled him to look back half a century, and when he reviewed the rise of temperance work and compared its present with its past, he had everything to encourge him. The movement has been growing stronger and stronger, until now it has captured the consciences of men, and is recognized as a social problem of commanding claims. Eifty wars not there was scarcely a and call the yield 5,250,000 bales, last year's having been 6,500,000, there is an apparent deficiency of 1,250,000 bales in actual shortage and 450,000 bales for the increased demand—a total of 1,700,000, allowing other than American sources of supply to yield the same amount as last year.

INDIAN AND EGYPTIAN CROP.

It happens, however, that the Indian and

Exyptian crops are so good that England expects to get from these sources 2,304,000 bales, or 344,000 more than last year. Ellison & Coestimate that if the present high prices continue the very large stock on hand with the senult. The American people would have pro-publied the sale of intoxicants years ago, had t not been for foreign immigration. In New York city there are 250,000 Irish, who have spinners will be drawn upon to the extent of at least 376,000 bales, so that India, Egypt and the storing-rooms will contribute 720,000 bales toward making good the American deheleacy. The two weeks suspension of the Lancanshire mills will ease the market still further, but to what extent it is quite impossible to say, as the demand depends primarily upon the takings of the spinners. If we estimate the amount at one-half the present weekly British comsumption, which is certainly within bounds, the expression will give us another 70 000 which is certainly within bounds, the suspension will give us another 70,009 bales for the deficiency account, giving a total of 790,000 bales of 400 pounds each, or about nasting enert on the cotton market, which is not governed by the laws of reason or those of supply and demand; but they serve to cor-rect the extravagant misstatements by which deeply interested speculators seek to affect the price of an article of universal consump-

Savannah News.

There was a regular panic in the stock market Saturday, and Central, which has been tending downward the past several weeks, had a sudden drop of nearly six points. The small operators were demoralized, and dismay was occasioned among even the stift speculators on a big scale. There were vari-ous rumors assigned for the sudden tumble. among them, that the surplus earning of th hausted in the purchase of steel rails and rolling stock, and that there would be nothing left for dividends. It was also as-serted that a change of opinion has taken place among the new directors, and that there place among the new directors, and that there is now considerable opposition to the proposed distribution of the surplus cash of the steamship company. These rumors, coupled with the increasing impression that nothing can be done for the present, and the fact that an injunction lies against the new directors carrying out the schemes proposed have had

that certain Louisville and Nashville parties, who were largely interested in Central, have been quietly unloading and the depression was caused by the large offerings. The Louisville and Nashville stock has been rather panicky of late, and the interruption to business on the line caused by the late disastrous floods in Mississipi and Tennessee, and the destruction of bridges and damages to road bed, have occasioned a feeling of distrust among parties in the north largely interested. It was also reported that General Alexander was lately summoned to Baltimore to meet some of the large holders there and give an explanation in regard to the condition of the Louisville and Nashville, and that it was then decided that outside investments should be disposed of, and all availa-

ments should be disposed of, and all availa-ble means devoted to keeping up the stock of the Louisville and Nashville.

Major A. L. Hartridge, doubting the correctness of the reports, on Saturday telegraphed to General Alexander as follows: "Rumors circulated here that you and Baldwin are financially embarrassed, and are selling out your Central railroad stock. The stock is now quoted at 115 as result of these

reports. Please answer, giving facts, and an-thorizing me to deny."

During the afternoon he received the following reply:
LUISVILLE, March 4, 1882.—A. L. Hartridge: No foundation for the rumor. Neither I nor my rienus, to my knowledge, have sold a single share, shall advise them all to buy all that is offered.

into the valley of death, only to be followed by another and yet another. He appealed to all to set an example by banishing drink, so as to save others. The work should be continued until every state in the union had enactments prohibiting the manufacture or sale of strong drink. When Mr. Dodge sat down he was loudly applauded.

In the opening part of Mr. Dodge's remarks he hesitated for several minutes, evidently in pain, while the audience were in a tension of excitement at the delay. The speaker has an affection of the blood something like vertigo, and it was owing to an attack of this that the hiatus occurred.

THE COTTON MARKET

New York—The cotton market opened quiet and without quotable change for futures. During the morning a dull feeling was expressed, but after-wards the market assumed a steadiness that continued for the remainder of the day. The tendency was rather to a higher range of prices, and at the close an advance of a few points was effected for the months. The speculative feeling is very quiet. Spots manifested more firmness to-day and moved 1-16c; middling closed at 11 13-16c.

Net receipts for three days 28,790 bales, against 74,419 bales last year; exports 64,481 bales; last year 48,192 bales; stock 981,625 bales; last year 894,941

HOW PROPERTY SOLD AT THE COURT HOUSE YESTERDAY.

ecutor's Sale of the Property of the Late Capta William Kidd How the Centennial Block Sold Sale of Citizens Bank Property A Heavy Sale by Sheriff-Other City News.

Yesterday the most extensive public sale of real estate which Atlanta has had for some time occurred. The most important of the lot was the sale of the centennial block, by the executor of the late Captain Will am Kidd. This important sale was the leading topic of conversation in real estate circles and as a consequence the attendance at the sale was very large. The entire property, including all the personal estate, was appraised cluding all the personal estate, was appraised at \$253,000. but the sale yesterday showed that the appraisement was higher than a forced sale would justify. The executor, Mr. John H. Mecaslin, had put the selling of the property in the hands of Colonel George W. Adair, who advertised it very extensively.

The most important piece of property being the centennial block, the greatest amount of interest was directed toward that property. It had been assessed and appraised at \$125,000, and there was a very general desire to

erty was then put before the bidders.

PERSONAL EFFECTS.

The first offered was some Atlanta gas light company stock, of which there were 339 shares. The par value of the stock is twenty-five dollars. That which was sold yesterday went above par, selling at from twenty-seven and a half to twenty-eight dollars. It was sold to Messrs, James Lynch, H. Castleman, Samuel Weil, T. G. Healey and J. A. Alexder. Following this was a lot of Atlanta street railroad stock—143 shares—which went at the par value of \$100 to W. S. Thomson, R. H. Richards, Hugh T. Inman and Richard Peters; 88 shares of Atlanta national bank stock, with a par value of \$100, was sold to R. H. with a par value of \$100, was sold to R. H. Richards at from 121 to 122; 3 shares of Georgia railroad siock were sold to L. J. Render at \$163.50 per share; 10 shares of Oglethorpe factory stock, with a par value of \$100, were sold to R. M. Clark for \$25 per share; 5 shares of Southern and Atlantic telegraphs and sold read to the state of the shares of Southern and Atlantic telegraph stock par value \$25, sold to J. M. Ball at \$21; 71 shares of Citizens' bank stock, par value \$100, could not be sold at any price.

Mr. E. Cahn made a bid of five cents for the lot but withdrew it before the stock could be knocked down to him. Forty Atlanta sixes, due January 1, 1888, for \$500 each were sold to Messrs. George Winship, R. H. Richards, J. C. Jenkins, D. W. Appler and H. Castleman at from 102 to 102.80. Five United States four per cents, due July 1, 1907 for \$1,000 each, were sold to W. B. Berry for 118. Mr. Berry also bought five Georgia sixes, due January 1st, 1889, for which he paid 111. The sale of the room furniture of Captain Kidd was then made and brought \$29.25 more. This made the sales foot up a grand more. This made the sales foot up a grand total of \$182,406. This was the sum total of the estate as sold under the hammer of the auctioneer. Colonel Adair thinks

it was a good sale. He says that the Centennial block property, managed with proper care, will net the purchasers eight per cent on the investment. per cent on the investment.

CITIZENS' BANK PROPERTY.

The next sale of important property was a receivers' sale of certain Citizens' bank property, which was offered by Mr. Samuel W. Goode, as agent for the receivers, Messrs. Hill A tract of twenty-seven acres and Thomson. A tract of twenty-seven acres lying near Edgewood, and known as the "Hudson tract," had been sold at private sale to Mr. George Winship for \$8,000, and, therefore, was not offered. The first piece offered yesterday was the "Perino Brown place" at Edgewood, which embraced a nine-room frame dwelling, out-houses and

It was said that he was purchasing it for Mr. Hightower, of Hightower & Hollman. The next piece sold was the seven room house at 81 McDonough street. It was sold to Mr. Julius L. Brown for \$4,025. WHAT FOUR ACRES BROUGHT.

Sheriff Perkerson sold four acres of the Bartlett estate, lying near the rolling-mill, for seven thousand dollars. The property fronts the Western and Atlantic railroad, has no improvements and was sold to Mr. Anthony Murphy.

It was certainly an eventfullday in real estate circles, and makes a good showing for the value of Atlanta property.

In the bidding for the Centennial block it is understood that Mr. Julius L. Brown had put a limit of \$112,000 on the property, and that General John B. Gordon had a representative authorized to bid as high as \$110,000, and that at least two other parties had put a limit of between \$100,000 and the price which the property brought. It is rumored that the Messrs. Grant intended to purchase it if it could be obtained under \$120,000, and the fact becoming known probably deterred others from bidding.

Again last fall she disappeared. In the morning she left home for school but failed to return in the evening. Subsequently it was ascertained that she had not been to school, and in a few days Lena was found in DeKalb county at the home of a farmer. She was brought back and both of these escapades were given to the public through the columns of The Constitution. Yesterday Lena made her third effort to leave home, but her usual bad luck attended her. Just before the state road train left the depot she entered the ladies' reception rooms and asked a colored girl who is employed there to point out the State road train. The girl knew Lena, and remembered her former runaway trips, so after she had shown her the train the colored girl informed Officer Porter of the same. The girl's story aroused the officer's suspicions, and in a few seconds he was standing face to face with Lena, who briefly told him that she was going to Washington, D. C. When asked for her ticket she said she had none, neither did she have any money with which to pay her expenses. In addition to this she frankly confessed to the officer that she was running away from home. After hearing her recital Officer Porter asked her to accompany him to the calabose, where she was placed in charge of Officer Haynes, who began an immediate investigation.

TWO CASES ALIKE.

By the Careless Handling of Platola Two Children Are Shot.-One is Killed and the Other May Die, Yesterday morning Dr. Ed. Roach was hurriedly summoned to a house in the first ward where he found a small five-year old lad weltering in his blood, and a house full of Petalty the doctor.

"I made \$170 one winter," said Sam Walace, as he whipped up his street car mules ast night, "selling 'possums in this town."

'Selling 'possums' "Yes, sir. I made it a regular business. I used to catch from six to eighteen in one night, and sell them for about 60 cents apiece. Many a time I've caught a half dozen up one 'simmon tree. I got to know their "runs" so well that I never failed to bag several in one night. After frost had sweetened the 'simmons they were just as certain to pace out to the 'simmon trees, moon or shine, as a nigger is to go to a circus. It use to be the regularest thing in the world to see me come in town with a bunch of a dozen 'possums curled round a pole."

"Where did you sell 'em?"

"Where did you sell 'em?"

"Calhoun, the colored hotel keeper, took all I could bring him. He never could get more than he would use. I tell you, niggers love 'possum, and if there is anything that will make a nigger pay for a hotel dinner, it's knowing that he'll get baked 'possum and taters. They used to run a 'possum eart through town and peddle them out either raw or cooked. If I just could leave this car tonight," added Sam, reflectively, "I could catch a half-dozen fat 'possums 'fore morning. I know where to find 'em, and that's all I ask."

The Slate for the Mayoralty Opened and What Is

Writtea Thereon.

Within the past few days the streets have been flooded with a small-sized poster announcing Mr. John H. Seals, of the Sunny South, as a candidate for mayor of the city of Atlanta. This announcement has brought the mayoralty question to the front, and although the election does not take place until December next, political slates are being made out and the question is gradually growing warmer. In addition to Mr. Seals there are many other probable candidates for mayor, but as to the successful one there is no telling. Mr. John B. Goodwin, who has long been connected with the city government, may be counted in the race. In fact his friends positively assert that he will be the next mayor of Atlanta. Dr. Roach, who was a prominent figure in the last election, will again ask the people to make him their chief executive. His friends say that his withdrawal from the race at the critical period of the contest en itles him to an election Julius L. Brown is also spoken of by his many friends as a candidate. So far this is about a list of the candidates

for mayor, but as the day of election draws nearer the candidates will increase in num ber and variety and the voters will have no

It had been assessed and appraised at \$125,000, and there was a very general desire to see how near to the figures of the assessors a forced sale would carry centrally located property. The first bid was \$75,000, but the bidding was spirited, and in a short time Colonel Adair was crying a hundred thousand dollars as his bid. When \$112,500 was bid, there was a halt, and after some vain efforts to carry it higher, it was knocked down to Messrs. John T. and W. D. Grant.

The next piece of property sold was a lot on Marietta street with 100 feet front, which was sold to Mr. John Davis for \$4,050. This piece was followed by a Merritt's avenue lot 50x190, which was knocked down to Messrs. B. H. Hill, jr., and W. T. Newman for \$385. The Wheat street lot, 40x200 was sold to Mr. J. B. GEORGIA IRON WORKS

PROPERTY.

IN OBEDIENCE TO A DECREE OF THE SUPE for Court of Fulton county, Ga., in the cause of G. J. Forcacre and Wim. S. Thomson, trustees, against The Georgia Iron Works, we will sell on the premises, at public outery, on Thursday the 23d day of March, 1882, beginning at 10 o'clock a.m., the following property of the Georgia Iron Works, to wit: All that tract or parcel of land, containing twenty-five acres more or less, in the city of Atlanta, and in land lot eighty-two (82), of the 14th district, beginning at a stake located on the right of way of the Western and Allandie salience. lanta, and in land lot eighty-two (82), of the 14th district, beginning at a stake located on the right of way of the Western and Atlantic railroad, thirty feet north of the G. M. T. Perryman northeast corner, and thence in a northwesterly direction along said right of way twenty and six-tenths chains, thence west nine and eighteen-hundredths chains to Gray street at a stake situated at northwest corner of the property herein described, thence south along Gray street nineteen and three-fourths chains to Johns street at a stake situated at northwest corner of the property herein described, thence south along Gray street intereen and three-fourths chains to Johns street at a stake situated thirty feet ne-th of the G. M. T. Perrman northwest corner, thence east fitteen and twenty-seven-hundredths chains to beginning point; together with all the tapprovements thereon, consisting of the furnaces and ruins of a large rolling mill which was descroyed by fire, a large two story stone foundry building, machine shop, office and dwelling houses, Said real estate will be sub-divided into lots, (I lats of which will be distributed on day of sale, or furnished on application in the meantime) and will be sold as a whole or in parcels, as we may determine on the day of sale. Also, all the machinery, patterns, tools, boilers, engines, cales, trucks, etc., of the Georgia Iron Works now on said premises.

-The terms of the sale will be cash and as the decree provides, as follows: "In making the sale, the trustees, after receiving sufficient cash to nay off

cales, trucks, etc., or on said premises.

The terms of the sale will be cash and as the decree provides, as follows: "In making the sale, the trustees, after receiving sufficient cash to pay off the liens having priority or claiming priority over the mortgage bonds, may receive in payment for said property the bonds secured by said mortgage at the amount to which they will be entitled upon the distribution." We will, in obedience to said clause of the decree, require but twenty per cent. of the purchases made by the holders of said bonds to be paid in cash, and the balance in said bonds as provided in said clause. Purchasers will get title upon c-raplying with terms of sale.

This is a most valuable property for manufacturing purposes, being located on the line of the Western and Atlantic, Georgia Pacific and Clincinnati and Georgia railroads, and has been sub-divided to meet almost any demand for a manufacturing location.

The attention of manufacturers, coal, lumber and stock dealers, as well as of capitalists generally, is called to this property as offering inducements for investment not elsewhere to be found in crabout Atlanta.

In consequence of a doubt having been expressed as to the terms of the sale, the sale of this property, heretofore advertised, has been postponed, and it will be made as above stated.

Deaths of Rev. W. T. Brantley, Mr. W. D. Ellis, Mr. G. P. A. Spyers, and H. R. Jackson,

A brief telegram was received in the city Monday announcing the death of Rev. Wm. T. Brantley, which occurred at Baltimore that morning. The telegram was sent by Mr. T. J. McGuire to Mr. John H. James, and merely announced the death of the distin-guished divine and gave none of the particu-lars of his illness. The telegram was received a few minutes after the adjournment of the usual Monday morning pastor's meeting, therefore no action was taken by the city pas-tors yesterday in reference to the matter.

Dr. Brantley was in his sixty-sixth year. He was one of the most noted ministers of the day. The "History of Georgia Baptists" con-tains an interesting sketch of his life. He was day. The "History of Georgia Baptists" contains an interesting sketch of his life. He was born May 18th, 1816, in Beaufort, S. C. He was graduated by Brown university at Providence, R. I., and immediately after, in 1840, he was called to the charge of the Greene Street Baptist church in Augusta, having been duly ordained. In the succeeding year he married Miss Mary Ann Turpin, daughter of Dr. W. H. Turpin. In 1848 he moved from Augusta to Athens to accept the professorship of belle lettres in the university of Georgia, a position which he held until 1856, when he accepted a call to the charge of the Tabernacle Baptist church in Philadelphia. In 1861 he resigned and came back to the south. He accepted the pastorate of the Second Baptist church in Atlanta and remained the pastor of that church for ten years. In 1871 he accepted a call to the Seventh Baptist church in Baltimore, that pulpit having been made vacant by the resignation of Dr. Bichard Fuller. He remained in seventh Baptist church in Battimore, that pulpit having been made vacant by the resignation of Dr. Richard Fuller. He remained in Baltimore up to the time of his death. He was one of the very first pastors of the Baptist denomination, a man of great literary and theological attainments, and his death casts a gloom over thousands who had come to know and love him.

After an illness of four months, the above named gentleman died at his place of residence, in Atlanta, on Saturday, March 5th. He leaves two daughters—Mrs. N. G. Moore and Mrs. W. F. Peck—of this city, and two sons—Messrs. W. D. Ellis and Hayne Ellis—of Macon.

Had he lived until April, he would have been severnty-six years of age. Through his long life he was an active, energetic business man. Early in life he was engaged in railroad building; after that following commercial pursuits until 1860, when he retired from business possessed of quite a fortune, nearly all of which was swept away by the war. His wife, who was Miss Charlotte McIntosh, of Charleston, South Carolina, his native state, died some thirty years ago. MR. G. P. A. STYERS.

The many friends of Mr. George P. A. Spyers, of this city, will regret to learn of his death, which occurred in Tampa, Fla., Monday morning. On the 23d of December last Mr. Spyers left Atlanta for Florida in search of his health, which had been gradually failing for months. Soon after his arrival in Florida he began to improve rapidly. rival in Florida he began to improve rapidly, and great hopes of an early recovery were en-tertained by his friends here. Mr. Spyers was at the time of his death one of Atlanta's station house keepers, and was an excellent offi-cial. He was sober, honest, industrious, faith-ful and kind-hearted. Mr. Spyers was 33 years of age and leaves a wife and two children.

NEW GAS WORKS.

round to be Broken To-Day for a New Gas House and Machinery.

Mr. B. F. Sherman, a wealthy and success ful business man, of New York, on yesterday closed a contract for the erection of buildings for a new gas company that he represents. It will be remembered that Mr. Sherman sewill be remembered that Mr. Sherman secured a charter some time ago for the making of illuminating gas. He has since purchased a lot, and as before stated on yesterday, closed a contract for the building. Ground will be broken to-day and the buildings are to be finished in six weeks. The contract for machinery made with a Pennsylvania firm calls for its completion in six weeks. Mr. Sherman has abundant capital to lay meins and nings to abundant capital to lay mains and pipes to all parts of the city, and says that within six months he will have his lines running an parts of the city, and says that within six months he will have his lines running through every main street and competition assured to every gas consumer in the city. He proposes to make gas by a new process. The product is called water gas and is made under a patent. He claims that it will give one hundred per cent better gas, double the illuminating capacity and at very much less cost than the gas now furnished in the city. He states that he does not care to engage in any ruinous competition or cut throat business, but believing that the city is large enough for two gas companies, he proposes to put up his works and run out his mains and ask the people to give him a chance. Mr. Sherman is a man of enterprise, energy, sagacity and wealth, and is a most valuable addition to the ranks of the city's business men. city's business men. IT IS SAID

That there is a big counterfeit mill in At-

That the new police commissioners give general satisfaction. That the city court tried a number of petty riminals yesterday.

That the new canal water works scheme was generally discussed yesterday. That Captain Bagby has a big sensation in his pocket which he refuses to give away.

That Captain Starnes has received a leave of absence for thirty days, and that he will leave for Texas Monday night. That Messrs. B. H. Hill, Jr., and Hoke Smith bought a magnificent property in Bell-wood yesterday. It is understood that they will improve it in a short time.

That Menday night Deputy Collectors Crawford and Irish seized a big distillery in Campbell county. They destroyed two copper stills and 1,500 gallons of beer and mash.

The World. This spectacular drama has twice been inter-oreted by the Brooks & Dickson company, at De-dive's opera house. Last night the audience was a ood sized and enthusiastic one. The scenic effects were more satisfactory than on Monday night. The cting was very good. Mr. Frank Rose, as "Sir Mement Huntingford," the hero, is an excellent Clement Huntingford, "the hero, is an excellent actor, and supports the chief interest of the play. Mr. James, as the Jew "Moses Jewel," is original, and although a very broad burlesque, is very amusing. Miss Helen Sedgwick, as "Mabel Huntingford," the deserted wife, made the most of her part in a quiet, and altogether tasteful manner. Miss Ettie Baker, as "Mary Blythe," looked prety, and acted well. The drams and spectacular scenes, make up a play of really thrilling interest. This afternoon at half-past two a matinee, and an entertainment to night, and all who attend will be repaid.
